Selling of United States Steel 'Had Sympathetic Effect on the Market.

NEW YORK, April 25.—While the stock market of 10-day continued extremely dull, there were evidences of more positive weakness than in the stagnant and dropping market of last week. The weakness seemed to spring from United States Sieel preferred which was very freely sold from the outset, with marked sympathetic effect on the whole market. The source of this selling was not clearly understood, but it was attributed to Pittsburg account, and was surprosed, for that reason, to be based on unfavorable developments in the trade. It was fumored, also, that the affairs of the syndicate for converting preferred stock into second mortgage bonds were about to be finally closed.

The engagements of gold for shipment by the to-morrow's steamer reached an aggregate of \$6,00,000. Paris also hought some \$2,00,000 of gold in the London market to-day, thus strengthening the expectation of an early Russian loan lasse at that center.

Money continues almost a drug, except for an active demand for commercial paper, and for corporation notes. Railrow's reached that arreas of traffic official's builein explain the lower level of current carning by the deterred spring weather, and to express confidence that arreas of traffic with seasonable weather.

The London copper market was strong but without fencht to amalgamated copper. The active stocks ended the day a point below hast week's final prices and the tone was easy with prices at the lowest of the day.

Bonds were irregular, but the active issues were heavy. Total sales par value \$2.50,000.

The King in proposing the health of President Loubet said that the hearr of Italy beat in unison with his. Agreement between the governments was easy,

ment between the governments was easy, His Majesty said, and by contributing to the maintenance of peace and signing the arbitration and labor treaties they had guaranteed the political and strengthened the social peace, President Loubet in expressing his gratitude for His Majesty's words, and for the magnificent reception accorded him by the Romans, declared that the affinities uniting the two countries would always keep them friends.

Those surrounding the Pope assert that he has expressed his intention to protest against the visit of Preident Loubet to Rome on the ground that it is the first occasion on which the head of a Cathelic country has ever visited the Quiring since the fail of the cemporal power of the Popes. It is not known when or under what form the protest will be Issued.

It has been postponed from time to time It has been postponed from time to time on account of the illness of Senator Tillman, of South Carolina, who is opposed to its confirmation. Senator Tillman went to his South Carolina home, not expecting to return to Washington during the present session.

It is understood that he has been notified informally that the Crum appointment will be called up for consideration this week, but it is doubtful whether on that account he will return to the capital.

The President has expressed to members of the Senate his desire that the appointment be acted upon at the present session. He wants it disposed of in one way or another, maintaining that it is unfair alike to him and to the appointee that the nomination should be left suspended in the air. It is said, therefore, to be the purpose of Republican leaders in the Senate to call the appointment up for consideration, in the hope that some action may be taken on it. They maintain that Senator Tillman has been shown ample consideration in the matter, and that it is time now to be passed upon. Among the Democratic leaders there is a disposition to oppose confirmation of the appointment. An attempt probably will be made to hold it up, some of the Democratic senators declaring they will prolong the session indefinitely if an effort should be made to secure confirmation.
